A.V. GNANESWAR REDDY

Hyderabad, India — +91 6305114126 — gnaneswarr93@gmail.com — LinkedIn — GitHub —

EDUCATION

CMR College of Engineering and Technology 2022–2026
B.Tech in Computer Science Medchal, India
CGPA: 8.31/10

Aadarsh Junior College 2020–2022
Mathematics, Physics, Chemistry Hyderabad, India
97.2%

PROJECTS

Food Ordering System | React, Django, REST API,PostgreSQL

- Developed a full-stack food ordering application with React.js and Django, implementing menu browsing, cart management, and order placement workflow.
- Built and integrated REST APIs to handle food menu management,cart operations, order placement.
- Designed a PostgreSQL relational database for managing users,menu items and orders, with Django ORM for database operations.

Pest Classification Web Application | Python, TensorFlow, Keras, OpenCV, Django

- Build REST APIs to connect the React frontend with Django backend and Python-based machine learning inference pipeline.
- Designed a Django web application that enables users to upload pest images and receive real-time classification predictions through an interactive interface.
- Evaluated model performance using Accuracy, Precision, Recall, and F1-Score to assess classification quality across multiple pest categories.

AI-Powered Fake News Detection Platform | React.js, Django REST Framework, Scikit-learn TF-IDF, Naive Bayes, PostgreSQL

- Built an end-to-end AI-powered news classification platform using React.js and Django Rest Framework, enabling users to analyze news headlines for potential misinformation in real time.
- Used The Guardian News API to fetch live news and process articles through the prediction pipeline.
- Integrated a Scikit-learn web application using React.js and Django REST Framework to classify news headlines as real or potentially fake.

TECHNICAL SKILLS

Programming Languages : Python, C++ , Java
Core Computer Science : Data Structures Algorithms (DSA), Object-Oriented Programming (OOP) Database Management Systems (DBMS), Operating Systems, Computer Networks, Software Engineering
Frontend : React.js, HTML5, CSS3, JavaScript
Backend : FastAPI, Django, REST API
Databases : MySQL,PostgreSQL, Relational Database Design
Artificial Intelligence : LangChain, TensorFlow, Scikit-learn
Developer Tools : Git, GitHub,Visual Studio Code

ACHIEVEMENTS

- Presented the Smart Window project at IIT Madras SHAASTRA.
- Finalist in Code Praghna Coding Competition at ACE Engineering College.
- Demonstrated project excellence at Prakalp Pradarshan competing against 150+ teams.

CERTIFICATIONS

- Microsoft Certified: SQL AI Developer Associate (DP-800)
- Oracle Certified Foundations Associate
- IBM Datathon: Data cleaning, visualization, analysis; built a mental health predictor.
